Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Monday 20 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Feeling colder tomorrow then turning more unsettled mid-week.

This Evening and Tonight:
Mostly cloudy conditions continuing overnight, cloud perhaps thick enough for a little patchy rain and drizzle, most likely in the north. Colder than last night in many areas with widespread frost England and Wales.

Tuesday:
Likely a good deal of cloud for many but staying generally dry. A few breaks possible at times, probably most likely in the west. Feeling colder than Monday.

Outlook for Wednesday to Friday:
Wednesday begins frosty with some fog patches. Sunny spells develop, before unsettled, milder, cloudy conditions arrive from the southwest. Rain, snow over high ground in the north, Thursday and Friday.
